

NEXT GENERATION Nitric Oxide Formula!

ROCKETONIC™

Dietary Supplement Spray

A Great Alternative to Energy Drinks or High Dose Arginine Supplements

- The **MOST POTENT, EFFICIENT, AND BIO-AVAILABLE L-ARGININE** based product on the market today.
- Contains a **PROPRIETARY BLEND FORMULA** for enhanced absorption.
- A higher level experience with our **FIRST-TO-MARKET TECHNOLOGY** sets ROCKETONIC™ apart from all other Nitric Oxide supplements.
- A great supplementation of **VITAMIN B12, VITAMIN B3, AND POTASSIUM NITRATE**.

Poor absorption limits L-arginine's benefits

Although L-arginine, a powerful amino acid, may provide support for the body in many ways, it has one significant problem. L-arginine has very poor absorption in our body. Therefore our body has a very difficult time digesting and absorbing L-arginine. **AKG** (*L-arginine Alpha-Ketoglutarate which contains plant-based L-arginine raw material*) with a 2 to 1 ratio is used to help support the absorption rate of Arginine in the body. AKG utilizes a different enzymatic pathway than regular L-arginine, which helps support absorption of the AKG that we consume.

Optimum absorption and utilization of high quality nutrients is the key to a safe and effective dietary supplement

You are what you eat, digest, and absorb.

NET WT. 0.47 FL OZ / 14mL

Supplement Facts

Serving Size: 8 Sprays (0.47mL)		
Servings Per Container: 30		
Amount Per Serving		% Daily Value
L-arginine (as L-arginine AKG)	15 mg	*%
